# ANNIVERSARY OF GOODRICH

The widering of transportation by rail and water, by automobile and motor truck, the development of the use of electricity, the growth of the industrial world—all these have called upon the full resources of the rubber industry until rubber in its manifold uses is an essential part of countless factors entering into our daily lives.

## THE TRIUMPH OF RUBBER

INCE the founding of the company in 1870 Goodrich has taken an active and prominent part in the upbuilding of the rubber industry. It has produced and is producing a host of things which effect a saving

Hundreds of thousands of people may think of Goodrich principally in terms of tires-yet tires are simply one division of the work of the organization. Some others are mechanical rubber goods, rubber footwear, druggists' rubber sundries and hard rubber products.

of time, labor and materials for other industries.

The growth of Goodrich is indicated by the fact that from the original output of fire hose and mechanical goods the list of Goodrich wares has increased until now more than thirty thousand different articles are being manufactured and distributed throughout the world.

The progress of the company from the beginning has been markedly influenced by the firm belief of every member of the institution in its plans, purposes and products. Harmony of effort, intelligent work, confidence in the company and in one another-these influences have combined to build Goodrich to its present great proportions.

The rounding out of its first half century finds the organization full of youth and determination, alive to the promises of the future and strengthened by the good will and good faith of customers whose patronage has been earned and held through merit.

AN INTERESTING BOOKLET-Few persons realize the interesting side—even the romance—of the rubber industry and its history. We have published a booklet commemorating our fiftieth anniversary. It tells the story of rubber. This book, "The Golden Year of Goodrich," will be sent in response to a request on your business stationery.
